

AQUA VISTA HOTELS

## **Press Release**

### ***Adamant Suites: A jewel in Santorini***

Shirley Bassey was singing Diamonds are forever in the movie of our beloved agent....

When it comes to jewelry there are also of another kind... like the six deluxe suites of Adamant Suites located in Fyra, Santorini. Six unique suites named after precious stones... Opal, Diamond, Sapphire, Aquamarine, Ruby and Emerald, each one has a special reason to shine and they all offer an amazing view to the volcano and the most famous sunset in the world...

Warm colors, modern decoration and discreet details create a particular atmosphere. Combine that with five star services like mini bar, air-conditioning, satellite TV, CD and DVD players, laptop, fast internet access, hairdryer, towels for the pool and the beach, Korres beauty products and you have a complete scenery of sheer luxury.

Begin your day enjoying a rich breakfast with champagne in the privacy of your balcony, continue walking around the graphic streets or the beaches of Santorini and return to a gourmet dinner under the stars while enjoying a cool traditional white wine. Complete your day with a relaxing Jacuzzi in your room.

You can also spend your day around the pool with view of the volcano and give in to the tempting tastes of the Pool Bar while sipping a cocktail... and why not go all the way with a facial or body treatment in your suite.

After all... everyone deserves a precious stone!
